

*[Music playing]*

**Female narrator:** Did you know that 50% of people said that mobile banking is a key service in selecting a primary financial institution?

**Female narrator:** So, give them what they want!

**Female narrator:** Through MYCU Services mobile services, you can offer your members the ability to handle their accounts while on the go with mobile pay and mobile deposit.

**Female narrator:** Mobile pay is banking application that allows your members to aggregate and access all of their financial accounts from their mobile device.

**Female narrator:** From your credit union's branded app, your members have the ability to not only monitor their accounts but perform various transactions as well.

**Female narrator:** Take a look at some of the features mobile pay offers. Including the ability to view account balances, pay bills, make account to account or person to person transfers, search for branch and ATM locations and receive alerts and push notifications regarding their financial accounts.

**Female narrator:** MYCU Services also offers mobile deposit which allows your members to deposit checks right from their mobile device.

**Female narrator:** All they need to do is snap a picture of their check and submit.

**Female narrator:** Make your members' lives a little easier by providing them with the convenience of mobile pay and mobile deposit.

**Female narrator:** Contact MYCU Services sales team for additional information on mobile services.
